

Din utveckling som kursledare

Kursledarprogram WCS 2025

Lärandemål

Efter avslutat seminarie ska deltagaren kunna:

- Understand the different stages of the development as a course leader
- Understand the difference between teaching styles
- Evaluate their own development as a course leader
- Evaluate their own teaching style and understand how it affects their teaching
- Understand why we do exercises like “*Reflect on ...*”

Background reading

- Peter Kugel: *How professors develop as teachers*, 1993
- Anthony F. Grasha: *A Matter of Style: The Teacher as Expert, Formal Authority, Personal Model, Facilitator, and Delegator*, 1994

Background reading

- Peter Kugel: *How professors develop as teachers*, 1993
- Anthony F. Grasha: *A Matter of Style: The Teacher as Expert, Formal Authority, Personal Model, Facilitator, and Delegator*, 1994

George Box: “**All models are wrong, but some are useful**”

What teachers focus on

Phase I: Emphasis on teaching

What teachers focus on

Phase I: Emphasis on teaching

- Focus on self: “Am I doing the right thing? Am I doing it well?”

What teachers focus on

Phase I: Emphasis on teaching

- Focus on self: “Am I doing the right thing? Am I doing it well?”
- Focus on subject: “Am I covering the material? Am I giving good explanations?”

What teachers focus on

Phase I: Emphasis on teaching

- Focus on self: “Am I doing the right thing? Am I doing it well?”
- Focus on subject: “Am I covering the material? Am I giving good explanations?”
- Focus on students: “Are the students learning? Are they engaged?”

What teachers focus on

Phase I: Emphasis on teaching

- Focus on self: “Am I doing the right thing? Am I doing it well?”
- Focus on subject: “Am I covering the material? Am I giving good explanations?”
- Focus on students: “Are the students learning? Are they engaged?”

Phase II: Emphasis on learning

What teachers focus on

Phase I: Emphasis on teaching

- Focus on self: “Am I doing the right thing? Am I doing it well?”
- Focus on subject: “Am I covering the material? Am I giving good explanations?”
- Focus on students: “Are the students learning? Are they engaged?”

Phase II: Emphasis on learning

- Student as receptive: “Are the students receiving the information? Are they understanding?”

What teachers focus on

Phase I: Emphasis on teaching

- Focus on self: “Am I doing the right thing? Am I doing it well?”
- Focus on subject: “Am I covering the material? Am I giving good explanations?”
- Focus on students: “Are the students learning? Are they engaged?”

Phase II: Emphasis on learning

- Student as receptive: “Are the students receiving the information? Are they understanding?”
- Student as active: “Are the students applying the information? Are they analysing?”

What teachers focus on

Phase I: Emphasis on teaching

- Focus on self: “Am I doing the right thing? Am I doing it well?”
- Focus on subject: “Am I covering the material? Am I giving good explanations?”
- Focus on students: “Are the students learning? Are they engaged?”

Phase II: Emphasis on learning

- Student as receptive: “Are the students receiving the information? Are they understanding?”
- Student as active: “Are the students applying the information? Are they analysing?”
- Student as independent: “Are the students creating new knowledge? Are they evaluating?”

Focus on self

Focus on self

- Many of us begin as “assistants” and teach with a more experienced teacher

Focus on self

- Many of us begin as “assistants” and teach with a more experienced teacher
- When we first teach, we’re in terror: “*Will I survive?*”

Focus on self

- Many of us begin as “assistants” and teach with a more experienced teacher
- When we first teach, we’re in terror: “*Will I survive?*”
- We’re afraid that we might not know the answer to a question

Focus on self

- Many of us begin as “assistants” and teach with a more experienced teacher
- When we first teach, we’re in terror: “*Will I survive?*”
- We’re afraid that we might not know the answer to a question
- As a student, we could hide, now we’re in the spotlight

Focus on self

- Many of us begin as “assistants” and teach with a more experienced teacher
- When we first teach, we’re in terror: “*Will I survive?*”
- We’re afraid that we might not know the answer to a question
- As a student, we could hide, now we’re in the spotlight
- **Problem:** We know about the dance, but not much about teaching

Focus on subject

Focus on subject

- We develop a better understanding of the dance

Focus on subject

- We develop a better understanding of the dance
- We can speed up the students' learning by telling them what we figured out

Focus on subject

- We develop a better understanding of the dance
- We can speed up the students' learning by telling them what we figured out
- We know so much that we don't have enough time to cover everything

Focus on subject

- We develop a better understanding of the dance
- We can speed up the students' learning by telling them what we figured out
- We know so much that we don't have enough time to cover everything
- We are excited about questions, they let us dig into the details

Focus on subject

- We develop a better understanding of the dance
- We can speed up the students' learning by telling them what we figured out
- We know so much that we don't have enough time to cover everything
- We are excited about questions, they let us dig into the details
- **Problem:** sometimes we give so much information that students don't know what to do with it

Focus on subject

- We develop a better understanding of the dance
- We can speed up the students' learning by telling them what we figured out
- We know so much that we don't have enough time to cover everything
- We are excited about questions, they let us dig into the details
- **Problem:** sometimes we give so much information that students don't know what to do with it
- **Consequence:** students never need to figure things out for themselves

Focus on subject

- We develop a better understanding of the dance
- We can speed up the students' learning by telling them what we figured out
- We know so much that we don't have enough time to cover everything
- We are excited about questions, they let us dig into the details
- **Problem:** sometimes we give so much information that students don't know what to do with it
- **Consequence:** students never need to figure things out for themselves

This is not all bad. Remember that everybody has different reasons for taking dance classes.

Focus on student / student as receptive

Up until here, the focus was on **teaching**. Now we shift focus to **learning**.

Focus on student / student as receptive

Up until here, the focus was on **teaching**. Now we shift focus to **learning**.

- We realise that all students are different, so we mix *telling* and *showing*

Focus on student / student as receptive

Up until here, the focus was on **teaching**. Now we shift focus to **learning**.

- We realise that all students are different, so we mix *telling* and *showing*
- We mix harder and easier material, so there's something for everyone

Focus on student / student as receptive

Up until here, the focus was on **teaching**. Now we shift focus to **learning**.

- We realise that all students are different, so we mix *telling* and *showing*
- We mix harder and easier material, so there's something for everyone
- Questions tells us something about where students are in their learning

Focus on student / student as receptive

Up until here, the focus was on **teaching**. Now we shift focus to **learning**.

- We realise that all students are different, so we mix *telling* and *showing*
- We mix harder and easier material, so there's something for everyone
- Questions tells us something about where students are in their learning
- We ask questions to figure out what our students understand

Focus on learning

Student as active

Focus on learning

Student as active

- We need to make the students think about what we tell them

Focus on learning

Student as active

- We need to make the students think about what we tell them
- How exactly students learn is different, some learn by *doing*, some by *watching*, some by *thinking*

Focus on learning

Student as active

- We need to make the students think about what we tell them
- How exactly students learn is different, some learn by *doing*, some by *watching*, some by *thinking*
- We start to see ourselves more as coaches than as experts

Focus on learning

Student as active

- We need to make the students think about what we tell them
- How exactly students learn is different, some learn by *doing*, some by *watching*, some by *thinking*
- We start to see ourselves more as coaches than as experts
- **Limitation:** we still tell the students when to think and what to think about

Focus on learning

Student as active

- We need to make the students think about what we tell them
- How exactly students learn is different, some learn by *doing*, some by *watching*, some by *thinking*
- We start to see ourselves more as coaches than as experts
- **Limitation:** we still tell the students when to think and what to think about
- **Risk:** some students get annoyed when we *force* them to think instead of *telling* them what's right, they could feel like they don't learn anything

Focus on learning

Student as active

- We need to make the students think about what we tell them
- How exactly students learn is different, some learn by *doing*, some by *watching*, some by *thinking*
- We start to see ourselves more as coaches than as experts
- **Limitation:** we still tell the students when to think and what to think about
- **Risk:** some students get annoyed when we *force* them to think instead of *telling* them what's right, they could feel like they don't learn anything

Student as independent

Focus on learning

Student as active

- We need to make the students think about what we tell them
- How exactly students learn is different, some learn by *doing*, some by *watching*, some by *thinking*
- We start to see ourselves more as coaches than as experts
- **Limitation:** we still tell the students when to think and what to think about
- **Risk:** some students get annoyed when we *force* them to think instead of *telling* them what's right, they could feel like they don't learn anything

Student as independent

- **Idea:** we give students the tools and then let them choose what to learn

Focus on learning

Student as active

- We need to make the students think about what we tell them
- How exactly students learn is different, some learn by *doing*, some by *watching*, some by *thinking*
- We start to see ourselves more as coaches than as experts
- **Limitation:** we still tell the students when to think and what to think about
- **Risk:** some students get annoyed when we *force* them to think instead of *telling* them what's right, they could feel like they don't learn anything

Student as independent

- **Idea:** we give students the tools and then let them choose what to learn
- **Consequence:** students become experts on things we know little about

Focus on learning

Student as active

- We need to make the students think about what we tell them
- How exactly students learn is different, some learn by *doing*, some by *watching*, some by *thinking*
- We start to see ourselves more as coaches than as experts
- **Limitation:** we still tell the students when to think and what to think about
- **Risk:** some students get annoyed when we *force* them to think instead of *telling* them what's right, they could feel like they don't learn anything

Student as independent

- **Idea:** we give students the tools and then let them choose what to learn
- **Consequence:** students become experts on things we know little about

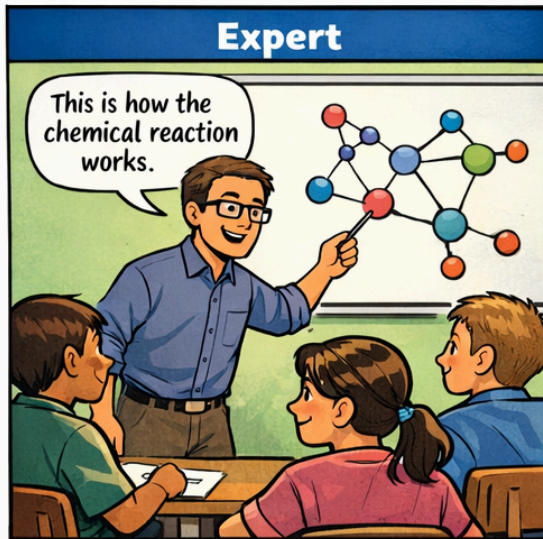

Our development as teachers is not linear. We will jump back and forth between the stages

Discussion in breakout rooms

Discuss

- Do you recognize yourself in any of the stages?
- Do you recognize your teachers in any of the stages?
- What do you think about the focus on teaching vs. learning? Is one of them more important than the other?

Teaching styles

Teaching styles

1. Expert → Experten

Läraren fokuserar på att förmedla ämneskunskap och visa sin expertis för att utveckla studenternas kompetens.

2. Formal Authority → Formell auktoritet

Läraren betonar regler, standarder och tydliga förväntningar kring vad som är korrekt och acceptabelt.

3. Personal Model → Personlig förebild

Läraren undervisar genom att visa hur man tänker och arbetar, så att studenter kan observera och efterlikna.

4. Facilitator → Handledare (eller Facilitator)

Läraren vägleder genom frågor och stöd så att studenter utvecklar självständigt tänkande och ansvar.

5. Delegator → Delegator (eller Delegerande lärare)

Läraren ger studenter stort ansvar att arbeta självständigt eller i team medan hen fungerar som resurs.

6. Bonus in dancing: Entertainer

Discussion

Discuss

- Do you recognize yourself in any of the teaching styles?
- Do you recognize your teachers in any of the teaching styles?
- Do you think one of the teaching styles is better than the others? Why or why not?
